

## Nedap N.V. Factsheet

### History:

The Nederlandsche Apparatenfabriek "Nedap N.V." was established in 1929 in Amsterdam. Since 1947 Nedap is located in Groenlo.

### Mission:

Moving markets with technology that matters.

### Themes:

City accessibility in a time of continuous population growth. Quality healthcare in the face of shrinking budgets. Security requirements in a world with increasing risks. These are just a few of the issues that Nedap people work on each day. We believe that technology can provide an important contribution to resolve major issues.

### Management:

The day-to-day management of Nedap is in the hands of the board of Directors and the managers of the business units.

The board of directors consists of: R.M. Wegman (CEO) and E. Urff (CFO).

The Supervisory board consists of: G.F. Kolff (President), J.M.L. van Engelen, D.W.J. Theyse en M.C. Westermann.

### Employees:

Nedap employs over 700 employees. The greater part is employed in Groenlo, approximately 450 persons. The other part is employed in one of the 9 offices worldwide.

### Offices:

The Nedap headquarters is located in Groenlo. Nedap has 9 other offices worldwide, viz. In Belgium, Great Britain, Germany, France, Spain, China, Hong Kong, Dubai and Boston (USA). Besides the official Nedap offices, the different business units have agents and partners all over the world to offer optimal support to the local markets.

### Stock exchange listing

Nedap has been listed on the NYSE Amsterdam (ASX) since 1947.

### Culture:

By combining the wide range of experiences and expertise throughout the Nedap organization and the insight in specific markets we significantly reduce our 'time to market' for new products. The valuable cross-fertilisation between colleagues is the key to success at Nedap. In our flat organisational structure decisions are based on the quality of arguments instead of a position in the hierarchy. Initiative, creativity, drive and perseverance characterise everyone who works at Nedap. And we encourage our employees to demonstrate their personal entrepreneurship by building new propositions that move markets.

## Business Units

Each of Nedap's nine in-house business units function as an independent business unit to provide deep insight into their particular market segment.

**Energy Systems:** Storing solar energy for your own use is quickly becoming commonplace. Nedap's PowerRouter technology is a clever solution to enable this.

**Healthcare:** More than 80,000 healthcare professionals work with Nedap Healthcare's user-friendly and intuitive software every day. Thanks to these intelligent tools, care professionals work completely independently.

**Identification Systems:** combines security and ease-of-use, making us a global player in the identification of vehicles and people.

**Library Solutions:** makes libraries more intelligent than ever before. Our discreet RFID technology for managing and securing books brings innovation to libraries whilst maintaining their unique ambiance.

**Light Controls:** saves energy across the globe by focusing lighting solutions on one single objective: the right amount of light, where and when needed, without unnecessary spillage.

**Livestock Management :** develops sustainable, animal-friendly systems for monitoring big herds and cows individually as well as caring for large groups of pigs individually.

**Pep:** intermediaries play an essential role in the temporary employment sector. Nedap's PEP intelligent software lets intermediaries make even more of a difference.

**Retail:** Nedap Retail helps retailers take optimal advantage of every square foot of floor space. Our sophisticated RFID solutions ensure that customers always find what they want.

**Security Management:** Nedap's AEOS is the only fully-integrated security solution that combines access control, video management, intrusion detection and locker management in a single platform.
